

**Handout****1 - 2**  
Section 3**Enrichment****The Maze**

To find your way out of the maze, you must follow these instructions:

- **Start** at the number in the middle.
- **Find** a correct way to decompose this number in the surrounding circle.
- **Find** another way to decompose the number among the nearby expressions in the next circle.
- **Continue** moving from one circle to the next in the same way until you reach the outer circle.
