

**Handout**  
**1 – 8**  
Section 8

Reinforcement  
**Missing Terms**

**ANSWER KEY**

1. Write the equation you would use to find each missing term.

a)  $172 + \blacksquare = 283$

$283 - 172 = \blacksquare$

b)  $\blacksquare - 261 = 472$

$472 + 261 = \blacksquare$

c)  $419 - \blacksquare = 212$

$419 - 212 = \blacksquare$

d)  $331 + \blacksquare = 452$

$452 - 331 = \blacksquare$

e)  $7 \times \blacksquare = 28$

$28 \div 7 = \blacksquare$

f)  $218 + \blacksquare = 311$

$311 - 218 = \blacksquare$

2. Match each number to the corresponding equation.

a) 452       $287 + \boxed{321} = 608$

b) 327       $\boxed{452} + 118 = 570$

c) 262       $538 - \boxed{327} = 211$

d) 321       $\boxed{9} \times 4 = 36$

e) 9       $472 + \boxed{171} = 643$

f) 171       $473 - \boxed{262} = 211$

**My calculations**

$\begin{array}{r} 5_1 \\ 608 \\ -287 \\ \hline 321 \end{array}$	$\begin{array}{r} 6_1 \\ 570 \\ -118 \\ \hline 452 \end{array}$	$\begin{array}{r} 538 \\ -211 \\ \hline 327 \end{array}$
$36 \div 4 = 9$	$\begin{array}{r} 5_1 \\ 643 \\ -472 \\ \hline 171 \end{array}$	$\begin{array}{r} 473 \\ -211 \\ \hline 262 \end{array}$

**3. Find the missing terms.**

a)  $345 + \boxed{836} = 1181$

b)  $800 - \boxed{432} = 368$

c)  $\boxed{420} + 78 = 498$

d)  $\boxed{239} - 76 = 163$

e)  $\boxed{100} \div 10 = 10$

**My calculations**

$\begin{array}{r} 71 \\ 1181 \\ - 345 \\ \hline 836 \end{array}$	$\begin{array}{r} 791 \\ 800 \\ - 368 \\ \hline 432 \end{array}$	$\begin{array}{r} 498 \\ - 78 \\ \hline 420 \end{array}$	$\begin{array}{r} 1 \\ 163 \\ + 76 \\ \hline 239 \end{array}$	$10 \times 10 = 100$
--	--	--	---	----------------------

**4. Solve the problems.**

- a) Libby went mushroom picking. She used 239 of her mushrooms to make a potion. Now she has 106 mushrooms left. How many mushrooms did she pick?

Libby picked 345 mushrooms.

**My calculation**

$\begin{array}{r} 1 \\ 239 \\ + 106 \\ \hline 345 \end{array}$
--

- b) Sylvester prepared 560 flasks of laughing potion. If he has 209 flasks left, how many flasks of laughing potion has he used?

Sylvester has used 351 flasks of laughing potion.

**My calculation**

$\begin{array}{r} 51 \\ 560 \\ - 209 \\ \hline 351 \end{array}$
---
